# 10 Are Dead in New England Forest Fires

## 3,500 Persons Flee As Damage Passes \$20,000,000 Mark

By Harry Vandernoot

BAR HARBOR, Me., Oct. 24.—(UPI)—Red-eyed, soot-grimed fire fighters appeared today to be winning their battle against walls of flame which have leveled two-thirds of this summer playground of the rich, forced evacuation of 3,500 persons and caused \$20,000,000 worth of damage.

They appeared to have halted the advance of a 10-mile frontier fire that ringed Mount Desert Island and made Bar Harbor a hell on earth for more than 12 hours.

Only another adverse shift in the wind, authorities said, could bring new disaster to the hard-pressed firemen and volunteers who battled the blaze with dynamite, bulldozers and mobile fire pumps flown here from Seattle, Wash.

### At Least 10 Deaths

At least 10 deaths had been recorded as New Englanders fought an unprecedented series of forest fires from northern Maine to Connecticut. Damage, mounting hourly, was estimated at \$20,000,000 by mid-day.

Some of the damage could not be measured by firemen. For instance, records of 35 years of cancer research were lost when the fire destroyed the Kosco B. Jackson Memorial Laboratory in Bar Harbor.

A large number of swank estates, including those of former Under Secretary of State Sumner Welles, the late Sir Harry Oakes, and symphony conductor Walter Damrosch, went up in flames as Bar Harbor was engulfed by fire.

### Evacuated Overland

The evacuation of Bar Harbor fire victims was to have been completed today at nearby Northeast Harbor and Seal Harbor. But by 10 a.m. Coast Guards arrived at those resorts, the word around the island, the aged, and women and children already had been evacuated overland by bus, truck and automobile.

Town manager Herbert A. Thomas of Northeast Harbor remained ready to direct fire fighting operations.

IN THE TIDE of the emergency, 3,500 persons in all locations were reported improving to direct fire fighting operations.

Including the main house, were not damaged.

Clover trees and power poles blazed roads. Soldiers from Dow Field patrolled the nearby deserted areas, keeping the swarms of swank estates and leaving next door neighbors unscathed. Of six buildings on the vast Atwater Kent estate, two were destroyed and the others,

### To Meet Emergency

## Truman Calls Special Session of Congress

By John M. Hightower

WASHINGTON, Oct. 24.—(AP)—President Truman directed a special session of Congress on Oct. 25 to meet a billion-dollar economic emergency in Europe and to check "shaming" inflation at home.

HE IS SCHEDULED to broadcast the report over all National networks at 9 p.m. EST to night.

Officials predicted that it will be a sweeping analysis of the critical situation in Europe. Truman sees the United States confronted with both at home and abroad.

More than 8,500 of the 14,000 workers who struck in plants across the nation were back on the job yesterday. The strikers would be at work by early next week. Officials of the industry's three largest employers, Swift Canadian and Burns and Company, said full production also should be achieved by that

A talk preliminary to arbitration between the United Packinghouse Workers Union and the Canadian Packers and Burns companies January convening date. And it will furnish the background against which he will recommend a three-point program of action to the Republican-led Congress.

He will also make clear yesterday when toward the close of a ten-day active day he read an open letter to the public which signed a special session proclamation.

CARTER IN the day he had met with his cabinet for two hours

(Continued on Page 2)

Thieves Cause Fire

MARINAKI, Que., Oct. 24.—(CP)—Alarmed when the acetone tanks in the basement of a bank were tampered with, thieves exploded early today, thieves fled the branch of the Royal Bank of Canada, leaving the building on fire and causing extensive damage.

Police were ordered to clear the lines after the British Columbia Electric Railway and the car and truck operators on strike called on civic authorities, charging that picketing of the tram tracks was a violation of the criminal code.

The trams are operated by members of the Brotherhood of Locomotive Engineers, and the tracks

### Flares Revive Hopes For Missing Plane

By ERWIN FRICKE

PENTICTON, B. C., Oct. 24.—(CP)—All aircraft here today engaged in the hunt for the RCAF photographic plane, missing since Saturday with nine persons aboard, were cleared of suspicion, continuing reports of flares in the mountainous lower Arrow lakes region, and the hope that some of the missing persons may still be alive.

The flares, which some search officials considered the best clue to date, were reported seen by various sources but all named the same area, the lower Arrow lakes, near Edgewood, B.C., and about 65 miles northeast of here.

The plane is usually known as the "Bigfoot" and was also seen by several individual observers

### 64 Polio Cases Now in Alberta

Alberta's poliomyelitis total continued to mount, reaching 64. Fifteen new cases were reported yesterday, a 17-year-old boy at Eckville was suffering from the disease.

A. S. Somerville, director of the Provincial department, said the drop in the rate of increase was an indication that in future only isolated cases could be expected.

### 50 to 100 Are Injured

## 28 Persons Killed As Trains Collide Outside of London

LONDON, Oct. 24.—(CP)—At least 28 persons were killed and scores of the number of injured ranged from 50 to 100 when two London-bound electric trains, packed with workers, collided in a dense fog early today at South Croydon, on London's outskirts.

Scores of others were bruised and shaken when a train from Hayward's Heath, Sussex, crawling through the mist, hit the line in the rear by a train from suburban Tattenham Corner.

The last two coaches of the Hayward's Heath train were thrown off the rails and the two leading coaches of the Tattenham train were telescoped. Residents along the moments of silence, cries of agony and fear.

WILLIE MCGOON, 60, of the village, ran yards to telephone for help; residents climbing on to the line and pushing the train, wires tore up sheets for bandages and emptied medicine cabinets to provide emergency treatment.

Most of the equipment was littered with blood-stained sheets. Ambulances and fire engines racing to the scene found that the engines were recalled when it was discovered there was no danger of fire.

One nearby resident said the crash of the collision "was followed by a sharp crack like a pistol shot."

We placed a ladder against our back garden fence and helped people off the train.

"THERE WAS NO PANIC at all although some of them were groaning," another said. "One old man was shouting and shouting until he carried off the tracks over a fence."

The accident occurred at about 8:30 a.m. and both trains were packed to capacity with workbound passengers. The two trains had been running in opposite directions and scenes of confusion prevailed all along the route as drivers tried to avoid each other.

It was in the last coach of the (Continued on Page 2)

### Drain on Dollar Resources Ruinous

By MARCH COOK

HUGH DALTON, chancellor of the exchequer, revealed in the House of Commons yesterday that the cost of the United States loan to the United Kingdom was spent in Canada in 1947 for food and other essential

He defended the use of the American loan in a speech designed to allay fears that the heavy cost of economy sacrifices outlined yesterday by Sir Stafford Cripps, minister of economic affairs.

He declared that the \$3,350,000 drawn from the American loan up to mid-August had been wasted as a result of the heavy purchases of foodstuffs from the United States were for food, raw materials and services. The cost of the initial outlay covered the costs of the occupation of Germany.

Of the total of \$600,000,000 from

(Continued on Page 2)

### Millet-Leduc Well Strikes Water

After drilling through 10,000 feet of rock, Millet-Leduc oil field operators struck water in the proved section of the Edmonton oil field strata at 6,255 feet and began pumping it to 4,900 feet before running casing Friday for a production test in the spirit of December.

The well is one of the most heavily syndicated in the field and has been drilled by 10 different operators. It is the 10th well of the Millet-Saint Paul oil field, 80 miles east of the International Oil Workers' Union (CIO-CCU) as the banner-pushing workers it is invaded.

An agreement to return to work was signed last night with Neil V. German, Calgary lawyer, representing the workers. It was announced that the men will return to work Friday.

In addition to the old agreement with Alberta Glass Products Workers Union No. 2 dated March 6, the CIO-CCU has signed a new contract with Cohen, Calgary lawyer, representing the workers. It was announced that the new agreement will take effect when the men are brought up and will be made known Friday.

The strike was sealed Aug. 17 over a six-day dispute. A short time later the company dismissed the workers but picking continued, evidently because the workers were not paid. Several fines and jail sentences were imposed. Seven picketers are serving time in jail on charges of watching and besieging the plant.

Several protest meetings in connection with the strike have taken place and for a time threat of a 100-man per cent industrial strike loomed in the city.

Issue 6 Permits \$298,000

Six building permits for the construction of commercial structures in Edmonton were issued by the city architect's office Thursday morning.

Permit No. 1, for \$300,000, was issued to the Standard Oil Works Ltd. for the erection of a 320 by 110 foot brick and metal storage building.

Permit No. 2, for \$150,000, was issued to the University of Alberta at 12,200 Avenue. The contractors on this work are Christensen and Sons Ltd. and M. D. Daigle, the engineer.

Edmonton City Dairies, Inc., got a \$250,000 permit to add 103 feet addition to an existing building at its plant on 109 street, the city architect's office said. The contractor is Bole and Poole Construction Co. the contractors.

Canadian National Railways will erect a 28 by 100 foot two-story frame structure at Calder Street and 109 Avenue, the city architect's office said.

Permit No. 5, for \$125,000, was issued to the Laundry and Cleaners Ltd. for a 100 foot per cent addition to its plant at 3066 99 street, and Jasper Dairy Co. for the same amount at 1100 99 street addition at 1100 Avenue.

Permit No. 6, for \$100,000, was issued to the city of the oil and concrete construction.

Calgary Laundry and Cleaners Ltd. took out a permit to add 100 feet to its laundry plant, located at 100 99 street, the city architect's office said.

### Unemployment Declines

## Employment in Canada Hits 5,000,000,000 Mark

OTTAWA, Oct. 24.—(CP)—Employment in Canada topped the 5,000,000 mark for the first time in the week ending Aug. 16 while unemployment in the Dominion declined to 73,000 at the same date, the Dominion Bureau of Statistics reported today after an exhaustive survey across

Negotiations Fail In Dairy Dispute

CALGARY, Oct. 24.—(CP)—Wage negotiations between the Calgary Dairy Employees' union and the Canadian Milk Producers' Association have been broken off. Western farmers will benefit directly through higher prices for their milk.

The Canadian Milk Producers' Association had last night agreed to a 10 per cent increase in wages for the 10,000 members of the union.

The Canadian Milk Producers' Association had last night agreed to a 10 per cent increase in wages for the 10,000 members of the union.

(Continued on Page 2)

### Announce Refund Freight on Cattle

OTTAWA, Oct. 24.—(CP)—Eastern farmers will receive a 50 per cent refund on the cost of shipping cattle cartloads of western cattle under a new plan of the federal government to relieve the congestion of western cattle markets.

The Canadian Milk Producers' Association had last night agreed to a 10 per cent increase in wages for the 10,000 members of the union.

### Why Have to Worry?

Fines for speeding on Edmonton streets have been up too. The "blitz" is 25 per cent. This makes the normal penalty \$20 plus costs of court, with the option of 30 days in jail. If there are aggravating features which make the offence more than usually flagrant, the pay-off may be worse.

What with street cars and trolley buses and motor busses and parked cars, motorists are finding traffic conditions more perplexing than they used to be. But these same factors make driving also more dangerous for other people. Unfortunately, not enough drivers are reacting in the right way to the hazard-creating change in circumstances. Hence the stepping-up of penalties.

Nine out of ten drivers will see nothing they need worry about in this raising of the ante. The more the others worry about it, the better. They can stop speeding and join the law-keeping majority.

### Keep the Trains Running

No explanations are needed as to the paralyzing effect a railway tie-up would have upon the business of the country, and therefore upon the living conditions of people of all classes and in all sections.

Production is pointless and ultimately impossible unless the product can be moved to market, and one-third of Canada's production must find a market abroad. Spreading unemployment, lost wages and profits, and a poorer standard of living, would be inevitable results of any prolonged stoppage of railway service.

The deadlock should not be allowed to occur, even if the negotiations between the companies and their employees break down. The federal department of labor has been standing by to see if the parties cannot settle the holidays-with-pay question by direct bargaining. Should they fail, it will be the duty of the officials to step into the picture and bring about some arrangement that will keep the trains running.

But such intervention becomes necessary, the department will have almost a free hand in making any shift that will keep traffic moving. The alternative would be so serious that almost any arrangement to avoid it would be justified. The country can't afford to be deprived of railway service. That is the foundation fact in the calculation.

### An International Threat

Egypt seems to be getting along fighting the plague about as India used to get along before the British introduced scientific means and methods there. The ministry of health, as far as I am concerned, indicates that most people in keeping score and reporting have failed the daily death-list is growing. It has mounted in a week from 25 day to 661, in Cairo alone.

Fortunately there are no reports as yet that the epidemic has spread to other countries. Probably because neighboring states followed the example of Greece, stopped air travel from Egypt and adopted rigid quarantine regulations for travellers who used any other means of transport. That the Arab states have done even this is rather doubtful for if the authorities at Cairo do not know how to combat cholera the other Moslem governments are probably not seriously enough concerned to take preventive precautions.

Some committee or commission of the United Nations organization should interest itself in this deadly threat that hangs over the Levant, and mobilize the health-protective services of advanced countries to fight a peril which Egypt does not seem to be able to deal with. Suppose cholera gets loose in disorganized Europe?

### Democracy at Bay

When Canada two years ago unearthed the "spy ring" and began to bring Canadian officials to account for disclosing information to a foreign power, Moscow responded by recalling its ambassador at Ottawa, explaining that his health was not very good—and has never appointed a successor.

Canada continued to keep its ambassador at Moscow for many months thereafter, but finally gave up expecting a return courtesy and sent him somewhere else. Both embassies have since been occupied by chargés d'affaires. That is the half-way mark toward severance of diplomatic relations.

This background lends interest for Canadians in the breaking of relations with Russia by Brazil and Chile. These countries, however, went the whole way, recalled their entire staffs of representatives, and have now no means of official communication with the Russian capital.

What these moves mean is that democracy in this hemisphere is taking a stand against interference directed from Soviet head-

quarters. Whether the directions come direct from Moscow, or is relayed by way of Belgrade, is immaterial. The three countries have taken steps to defend themselves against intrigue and revolutionary propaganda.

Chile has carried defence measures farther than either of the others. The government of that country has brought into force an Emergency Powers Act and started what is described as an all-out anti-Communist drive. Police authorities in Santiago have been ordered to hunt down and arrest members of the Communist central committee in Chile, to round up other Communist leaders and also trade union officials who are listed as members of that party.

Whether Brazil will go to similar lengths remains to be seen. Canada has done nothing beyond punishing those of its own citizens who were charged with breaking the law. It has tried, generously and without success, to maintain normal diplomatic relations.

Whatever may follow, the steps already taken demonstrate again the truth—which Hitler denied to his undoing—that democracy is not a spineless doctrine, nor democracies malleable without spirit enough to resist aggression. Moscow may as well understand—and probably does—that the palms day for its agents in this hemisphere have gone.

### Strange Thanks

Premier Attlee and his colleagues and their predecessors must wonder what next Britain will be blamed for doing or not doing in Palestine. For years the authorities at London have been hotly censured for not enforcing law and establishing peace in that unhappy land, the censure kept themseleves aloft from responsibility for whatever might happen there.

Britain has now laid the Palestine "baby" on the doorstep of the United Nations, saying that whether or not the recipient makes provision for the governance and care of the orphan British troops, the administrative officials are going to get out of the country.

This, it might be supposed, would be satisfactory to the United Nations, particularly so to those from whom there is coming a continuous stream of condemnation of British policy there. The bystanders, having found so much fault and given so much advice, would surely welcome the opportunity to take over the job, lay down the law to Jew and Arab, and make them both happy.

But not so. Britain now has to defend itself in the General Assembly for refusing to be the "goat" any longer. London, in the opinion of the delegates from some of the spectator states, has played a dirty trick on the United Nations in handing over the problem to that organization!

### Looking Backward

From the Bulletin Files

#### 1887: 60 Years Ago

Calgary citizens are applying to the North West Council for incorporation of a gas and waterworks company.

The MacLeod Gazette defends the scheme to found a Mormon settlement in southern Alberta, the generous welcome the Gazette will take as personal and that the entire party will emigrate.

Tenders are called for the construction of police barracks and hospital, Cairo.

#### 1897: 40 Years Ago

R. S. Jenkins was elected yesterday head of the Northern Alberta Teachers' Association for the coming year, and R. H. Dodson secretary.

The Pythian Dramatic Club is presenting Damon and Pythias at the Opera House on October 31.

Fred Hartley has returned from a trip to Winnipeg.

#### 1917: 30 Years Ago

In a statement today Food Administrator Hoover said the fight against submarine warfare will be won if the United States and Canada work together in a joint action to seize food for the Allies.

Organization is proceeding in the city and in county seats of the Victory Loan Campaign.

#### 1927: 20 Years Ago

General manager of Premier Breton in regard to his project to build a railway line from Peace River through the Pine River Pass to join the CPR and the British Columbia and Yukon railway, has failed to provide a conclusive explanation. He still is on the stand.

#### 1937: 10 Years Ago

In a bitter speech on the makeup of the Kowalev-Sirois commission to investigate Dominion politics, Mr. Thompson has failed to provide a conclusive explanation.

Mr. Thompson tried to discredit Mr. MacDonald's evidence by pointing out that the methods of accounting had been followed by the CPR from 1920 to 1946 and that it was impossible to make some kind of comparison which Mr. MacDonald had drawn.

Mr. Thompson's evidence is that under retirement accounting a charge is made to expenses after the employee has retired. Under retirement accounting involves a charge to expenses during the use of the employee representing its current wage.

V. Cairns, KC, was named as president of the Edmonton Chamber of Commerce.

#### Today's Text

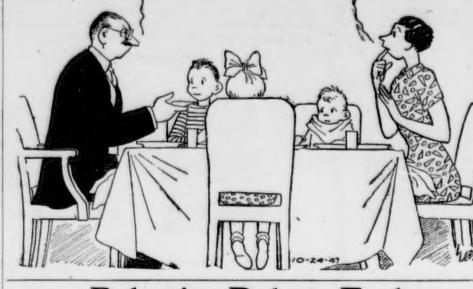

The wife shall be a fruitful vine by the sides of thine house; thy children like olive plants round thy table—Psalm 128:3.

### BRIDGE

by Webster

You should have seen  
the last hand we played  
on the train this evening.  
It was incredible, now  
get this—I held five  
spades to the—

SH-H-H-H!  
NOT IN  
FRONT OF THE  
CHILDREN, DEAR!

### Palestine Debate Ends

By MAURICE WESTERN

LAKE SUCCESS: A near-blind older statesman of Zionism has been playing a role on every page in the calm wisdom and unimpaired intellect of a scientist who 25 years ago was considered an authority on the covenant as the legal basis of their national home. It was Dr. Weizmann, opponent of partition, advocate of partition, who believes that his nation stands today on the "threshold of independence."

A feature of debate has been the caution of the great powers. We have had ananistic statements from the U.S. and Britain, and the French have said in stony silence. The Chinese have expressed a graciously apologetic dissent.

**THE STAND-UP** Britain has been the most vocal in its opposition to partition, but it has been compelled to let down its guard when burdened with other major international responsibilities. When a dangerous situation arises the U.S. must control its own steamship armada, meanwhile, will preclude no solution, no matter what the situation.

At point Mr. Creel Jones, originally destined for Britain's "national home" he insisted has been established. A Jewish community has doubled. Social standards have improved, economic activities have increased to the advantage of everyone.

Tireously repetitious and moderately sensitive, the Arabs have supported the Jews in their desire for advantages. To compare the criminal record of partition with that of the Jewish invasion, a small Jewish state of a million people, is ominous prediction.

With the previous antagonists forced to lay down their guard, burdened with other major international responsibilities, breakers but if a dangerous situation arises the U.S. must control its own steamship armada, meanwhile, will preclude no solution, no matter what the situation.

Mr. Weizmann, an old-timer, has been a tireless fighter in the cause of Zionism. He has argued that the Jewish state was "the inevitable and irreducible expression of God's mandate." He urged that a main justification "arises from the intrinsic nature of the Jewish people."

"I feel like a Jew," he said. "I have suffered like a Jew and I want to live like a Jew." He intended to remain a Jew but in denying that Arabs have supported the Jews, Zionist leaders have been none of his essential characteristics.

He caught up a phrase of the late Mr. Lloyd George, "unity cannot be imposed with impunity." He stressed the importance of developing Palestine and entered a period of silence. Finally, he spoke again.

"I feel like a Jew," he said. "I have suffered like a Jew and I want to live like a Jew." He intended to remain a Jew but in denying that Arabs have supported the Jews, Zionist leaders have been none of his essential characteristics.

Mr. Weizmann then dealt with the argument that the CPR did not have an initial reserve accounting, under which a larger sum is set aside for depreciation. Mr. MacDonald had calculated that the 1947 estimate was excessive.

In other words, there was a difference of 33 million dollars between Mr. MacDonald's statement and the estimate of expenditure.

It must be emphasized that Mr. MacDonald did not say that the estimate was excessive. He simply pointed to the difference of 33 million and asked to have it reduced.

Colonel Hartley, Mr. MacDonald's accountant, had not agreed with Mr. Thompson's testimony. It may be reported, however, that provincial counsel, Mr. Thompson, was not present at the hearing.

Mr. Thompson then dealt with the argument that the CPR did not have an initial reserve accounting, under which a larger sum is set aside for depreciation.

Colonel Hartley, Mr. MacDonald's accountant, had not agreed with Mr. Thompson's testimony.

"Tell what you think," asked Mr. Thompson, "and why not?"

"I'm afraid I don't know," replied Mr. Thompson. "I'm afraid I don't know."

"Tell me what you think," said Mr. Thompson. "I'm afraid I don't know."

"Tell me what you think," said Mr. Thompson. "I'm afraid I don't know."

"Tell me what you think," said Mr. Thompson. "I'm afraid I don't know."

"Tell me what you think," said Mr. Thompson. "I'm afraid I don't know."

"Tell me what you think," said Mr. Thompson. "I'm afraid I don't know."

cent of Palestinian soil claim 65 per cent for the Jewish state. Sherwood argued that the ancient Arab population in the new state would find a most effective security guarantee in the presence of the Jewish state on these sides.

Hussein's reply to this ominous prediction.

With the previous antagonists forced to lay down their guard, burdened with other major international responsibilities, breakers but if a dangerous situation arises the U.S. must control its own steamship armada, meanwhile, will preclude no solution, no matter what the situation.

### Lions and Rosicrucians

By ELMORE PHILPOTT

My friend, the Soviet journalist, Ilya Ehrenburg, wrote some scathing comment on American life after he got back to Russia. In it he asserted that he was a member of a Lions Club, roasting like wild animals.

I am sure that particular criticism. The boys were just having fun.

As strange to North Americans life might imagine our people had gone completely wacky if takes a football game—what is called a "roasted" cheering antics and wild insanity more people get fun out of that than they do out of anything else.

The Lions in our part of Canada are a fine thing. They finance the travelling expenses of delegations to the Orient, research on ways and means of fighting rheumatism.

We North Americans will gladly follow the lion in the sun, in our case, the lion in the rain, for any way, if meanly it will help make it possible for fewer people to have to undergo the agonies of arthritis—oldest crippling disease known to man.

I HEARD A fascinating lecture the other day by a speaker of the Rosicrucian order.

It was about the education of Jesus Christ. According to the Rosicrucians, the same "wise men from the east" who trained Jesus and who were present at the birth of Jesus, guided his entire education.

Jesus was enrolled, they say, at the ancient institution at Mount Carmel from his sixth to fourteenth year. Later, they say, Jesus was sent to India, Persia, and Egypt.

Out of the Bible itself, the most notable figure mentioned is the ancient historical figure that is the ancestor of Josephus.

It is many years since I read it. But I have had a report of the summoning of Jesus to the court of King Herod.

With the previous antagonists forced to lay down their guard, burdened with other major international responsibilities, breakers but if a dangerous situation arises the U.S. must control its own steamship armada, meanwhile, will preclude no solution, no matter what the situation.

She had only two more months to help her RN degree. She wept when my friend thanked her for her help.

Canada will live to be ashamed of our brutal treatment of citizens of Japanese origin as Americans and many war friends and relatives of those who dropped that atom bomb on 90,000 citizens.

Signed article on the opposite page are the opinions of the writers and are not necessarily endorsed by The Edmonton Bulletin.

importance and that has to do with the condition of the gravelled streets. It may be presumed that the maintenance machines are also working in a four-hour day. In winter, the snow removal equipment is also working in a four-hour day, at least, in the summer months, and when a job requires eight hours, the street should be cleared of cars the same as for snow removal and the same as for gravelled streets.

It has noticed that high cost of living has been brought in by the city council, who even asked that a special session of Parliament be called to consider the matter. It has not seemed to notice that they had anything at all to do with it and passed the blame on to someone else.

Colonel Hartley, Mr. MacDonald's accountant, had not agreed with Mr. Thompson's testimony.

He is the son of a man who has been a tireless fighter in the cause of Zionism. He has been a tireless fighter in the cause of Zionism.

There is another matter of some

S. S.

FREE FOOD PARCELS

Editor, Bulletin—We all know how much England needs food. At present three dollars' worth of food is being sent to England. I suggest as a wedding present for Princess Elizabeth that for the month of October, the post office deliver free of charge all parcels sent to the Old Country, these parcels to be dictated, and mailed the same as if you were paying in print and sign himself INTERESTED

D.O.T.

HOW ABOUT IT ROOMERS?

Editor, Bulletin—Granted that the roomers are not units needing heating but the canny person who has the enormous chore of supplying heat from a single window will be the first to complain when it happens to squat at the windows and notices certain ones open to the elements. I suggest that there is too much heat in that section of the premises and the heat in the direction where it should be generated is too great.

A bit of co-operation in this respect alone would make for better landlord and tenant relations.

CENTER LINE

Editor, Bulletin—The pattern of the past few years has been to sit idly by and watch the catastrophic race between price levels and wage levels. At least one reason for this is that the workers are not getting enough.

The manager will be like us when he sees the extra shot in this city can be worked the shortest week in town. The more living costs will go up, the more living costs will go up, the more the leisure time available for the workers will be lost.

Therefore, the more the leisure time available for the workers will be lost.

D.O.T.

To do our part in the welfare of our people we must all work along in time to save a lot. Surely we can do better than that.

H.E.L.

Editor, Bulletin—It is hard to believe that any government could be so important as to sit idly by and watch the catastrophic race between price levels and wage levels. At least one reason for this is that the workers are not getting enough.

The manager will be like us when he sees the extra shot in this city can be worked the shortest week in town. The more living costs will go up, the more living costs will go up, the more the leisure time available for the workers will be lost.

**Basic Differences Denied****Ike-Monty Feud Nailed In Book by Staff Chief**

By J. C. ANDERSON

**NEW YORK**, Oct. 24.—(CP)—The captains of war who led the Allies to victory in North Africa and Sicily into Italy have yet to write their memoirs. Yet they do, the personal account of Viscount Montgomery's Chief of Staff may be considered one of the most important books to come out of the Second World War.

In "Operation Victory" (Scribner's), Maj.-Gen. Sir Francis de Guingand considers the Field Marshal's famous force from Egypt across North Africa and Sicily into Italy. He reveals what that army before El Alamein and after Lord Montgomery took over, after Lord Montgomery took over, after the Axis offensive in Egypt and led the westward sweep across the desert.

De Guingand, 61, colonel, met Lord Montgomery, newly-appointed commander of the 8th Army, at a crossroads outside Alexandria, Aug. 10, 1942, and was invited to join his new command. He became Chief of Staff of the army and remained with him from Sicily to the end of the war.

Sir Francis' account, though it only upon events in which Sir Francis personally participated, is a story of the great battles, the great decisions and the sweep of armies. It is, too, a story of personalities, of men who fought the victory.

"OPERATION VICTORY" also is the story of the British 8th Army.

**Bacteria Well-Fed****In Clean-Up Drive**

**YORKTON**, Sask., Oct. 24. (CP)—Bacteria on dishes in Yorkton restaurants never had it so good.

Thanks to inspectors of the provincial department of health, they are now fed their favorite food and are kept at ideal temperatures to prevent bacteria from multiplying.

Colonies of bacteria are counted after three days and inspectors can judge whether or not the restaurant's cleaning methods are up to scratch.

J. E. Hockley, government inspector here, said sterilization was becoming more popular, especially as more people now were using restaurants and inexpensively help had increased the problems of restaurant owners.

**Corn Cob Power**

**WASHINGTON**, Oct. 24.—(CP)—Corn cobs are the fuel of the future. Government research scientists now believe corn cobs may furnish valuable butyl alcohol which can be used as fuel in automobiles.

**You can't beat Aylmer for pure fruit flavor**

YOUR FAMILY DESERVES AYLMER QUALITY

**YOUR FLOWERS**

**WILL . . .**

**... MAKE HER Feel Better**

It takes only a moment to pick up the phone and send her a bouquet of flowers. But she'll remember you for it long after she is well. All sick folk are lonely — and beautiful, fragrant flowers at this time have a magical way of comforting and cheering.

You'll find good value, and a fine selection, wherever you see the Allied Florists emblem.

**Cold Lake Postmaster Is Retiring**

appointed postmaster in 1925. He died in 1932, and his wife died in 1938, leaving him with his two daughters, Margaret and Bertha. Mrs. McLeod, formerly Miss Eva Marshall, now known as Mrs. Eva Westlock, was born at Gurnsey, Iowa. After training in the Moberly Seminary, she became the first nurse at the first Presbyterian missionary hospital in China. She was under the direction of the Rev. Dr. J. E. Dutton, D.D. She has been active in missionary circles ever since and in 1941 accepted a teaching position as a representative of the Women's Misionary Society of the Presbyterian Church of Canada.

Mr. and Mrs. McLeod celebrated their 20th wedding anniversary in September of last year.

Margaret, who before the war held a position with the Bank of Toronto, has been a member of the RCAF. Bertha, likewise is a RCAF member, having served in the Canadian Air Force.

Mr. McLeod is president of the Cold Lake Board of Trade. His financial hobbies will include farming with a ranch at neighboring Marie Lake.

**Moving to Brooks**

HANNA, Oct. 24.—Mr. and Mrs. Denver C. Hart of the Fennel division did not plan to leave before the end of the month to take their future home at Brooks.

RED DEER, Oct. 24.—One of the big sports events of the season for Red Deer fans will be a boxing card being arranged by the Red Deer Amateur Boxing Association for Friday, Nov. 7. While all details of the card have not yet been worked out, it is expected to have two Western Canada's best weightlifters meet in the main event. There will be a football bout, a battle royal and an exhibition of juggling.

J. L. Lester, manager of the AAA boxing committee, is in charge of arrangements for the card.

Deer Light Horse Association, R.C. Bowring presented a cheque for this amount to the Red Cross branch at the Army base where the camp will be staged. The Red Deer branch will be in attendance and it is expected that all known sports figure will be master of ceremonies for the evening.

J. K. Bryant, the president, was in the chair for the meeting.

**Font Red Cross**

BAWLIF, Oct. 24.—A Junior Red Cross branch was formed recently at the Bawlf school under the direction of Mrs. A. H. Smith. Officers elected are: president, Larry Latremiere; vice-president, Paul Shannon; secretary, Lorraine Jacobson; treasurer, Mrs. Jacobson; circulation manager, Leon Price; health convenor, Mrs. Price; and public relations convenor, Rodney Hanson. The group meets every Friday afternoon.

**Auction Cattle  
Prices Strong**

LEEDS, Ont., Oct. 24.—(CP)—Bids were strong at the community auction sale of cattle which began Wednesday at the Landbeck stockyards and con-

tinued yesterday in light of the settlement of the nationwide strike. Wednesday 339 head of cattle were sold. Prices for fat steers soared to \$16.00, while heifers went to \$14.00, cows to \$13.50, calves \$14.10 and bulls \$10.00. All packing concerns were represented.

**FOR 27 YEARS**

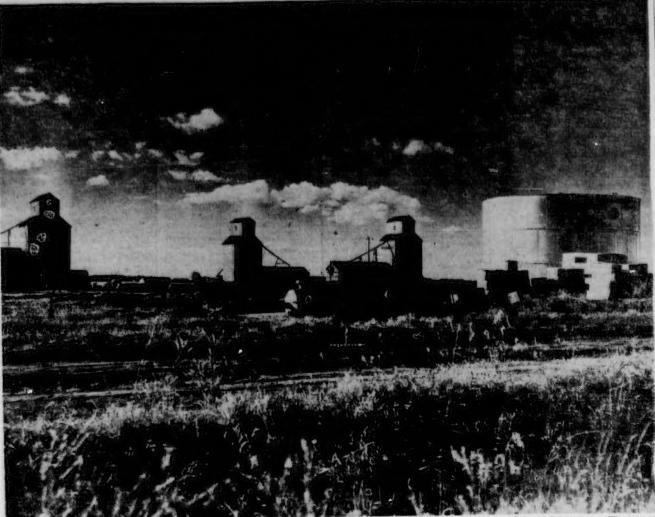

Ever since 1920 the name LOCOMOTIVE has symbolized power and reliability in Canadian washing machines. Satisfied customers write us regularly about Locomotive washers which have given faithful service for a quarter of a century. The smart, economical new Locomotive machines are built to uphold that tradition of quality and satisfaction.

The conventional prairie grain elevators, long symbols of the agricultural wealth of Alberta must now share the spotlight with the oil storage tanks, as the expanding Edmonton oil fields bring in more producers. In the foreground above is one of three large storage tanks

**Ilsley Hurls Charge****Canada Says Soviet Also War-Mongering**

By Ross Munro

LAKE SUCCESS, N. Y., Oct. 24.—(CP)—Canada counter-charged in the United Nations yesterday that the Soviet Union itself is guilty of "war-mongering" by building up the military power of Canada in the minds of the Russian people through its press and radio distortion of the Canadian picture.

SPEAKING FOR Canada after the United States made its most vigorous reply so far to Russian "war-mongering" accusations, Justice Minister Ilsley said that Canada's "duty is to speak the truth" in her sincere wish for friendly relations with Russia as well as to expose the misrepresentations in the Soviet press and radio about the Dominion.

These statements, he said, in the political atmosphere of "war-mongering" to stir up ill-feelings towards and misunderstanding about our people,

and which in that sense might be considered "war-mongering."

Like the United States spokesmen, Warren R. Austin, Ilsley called on the committee to reject the "anti-war-mongering" resolution which calls on member nations to banish their so-called "war-mongering."

BUT HE URGED the committee to condemn "war-mongering" in all its forms, and declared his intent instead in favor of propaganda for "civil war-mongering."

"Civil war-mongering," he said, aims "to stir up domestic strife among the peoples of the world against their freely-elected governments."

The Soviet delegation left off the counter-attack against the Russian resolution and violent accusations of Andrei Gromyko, chief of the Soviet delegation, at the time Austin declared the Soviet proposal is a step towards "establishment of a new international order."

THEY THEN CHARGED that the Soviet proposal is designed to "put the shackles on the brain of man as well as a gag in his mouth."

THEN CANADA, along with the Philippines, El Salvador and Haiti joined the United States in defeating the resolution. Russia was supported only by Poland.

Ilsley said the resolution defined war-mongering as "any war-

"in a way which makes one suspect that its authors are more interested in the destruction of other countries than in the welfare of their own."

The justice minister said that the Soviet proposal did not agree that laws which guarantee civil liberties should be changed for the purposes visualized in the Russian proposal.

"The suspicion is strengthened by the nature, and tone of statements made at this assembly by the Soviet delegation, and certain other delegations."

The justice minister said that the Soviet proposal did not agree that laws which guarantee civil liberties should be changed for the purposes visualized in the Russian proposal.

**Train Charges**

(Continued from Page 1)

reached between the steelworkers and four Vancouver steel plants which had been originally agreed upon would be proceeded with.

The men are charged with participating in a strike without first adhering to conciliation regulations made mandatory under the arbitration act.

MR. WISMER said that he was in no way biased by reason of his position as president of the steel and labor minister.

"I am not trying to hurry the process, but I propose to sit at board until one is chosen as provided by the act and I now proceed with the arbitration in those cases before me," he said.

Concerning the appeal to the Canadian government, Mr. Wismer said:

"This whole matter is before the court of arbitration and you can apply to the courts for a writ of prohibition."

Mr. Wismer will hear the evidence.

At opening sessions yesterday company representatives told briefly of their inability to reach, until Wednesday night, an agreement with the steelworkers. They turned to work in four of the plants Thursday following grants of a 10-cent increase and several collective bargaining agreements. A fifth plant is still idle.

Labor department officials testified in respect of documents they were asked to identify. The hearing is continuing.

**Turkey Complains  
Of Red Campaign**

LAST SUCCESS, Oct. 24.—(CP)—Turkey formally complained to the United Nations yesterday against what the Turk delegation called an "anti-Turkish campaign" by Russia to incite "Turkish people against their own government and other friendly governments."

The complaint was made by Turkey's representative to Andrei V. Vishinsky's charges that the United States and Turkey were permanent enemies.

Vishinsky charged that Russia was "waging a war" against Turkey.

Sparrow charged that Russia

and Turkish propaganda was trying to turn the Turkish people against the United States by spreading reports that Turkey was supporting the Truman administration.

The Turkish delegation rejected the Truman program for halting the spread of Communism.

These statements, he said, in the political atmosphere of "war-mongering" to stir up ill-feelings towards and misunderstanding about our people,

recently erected at Nisku 15 miles south of Edmonton. Three grain elevators are in the background. Nisku is the terminus of a pipe line from the Leduc sector of the Edmonton oil fields.

During the war cost of training a student pilot in the British Commonwealth Air Training Plan was about \$25,000.

## Teachers' Salaries Average \$2,000

Alberta teachers' salaries have been increased on an average of about \$100, and new rates at an average of about \$2,000. Eric C. Ansley, general-secretary of the Alberta Teachers' Association, declared in addressing more than 200 teachers from rural schools in the central Alberta area, that the Strawberry and West Kootenay areas, here for a two-day convention.

The delegates to the Second Education District teachers' convention were told that hopes for a more advanced pension plan for Alberta teachers are much brighter.

Mr. Ansley said excellent progress had been made in efforts to get a written contract, "not just a dictation," he said, "that teachers would soon be included in the contract." He added that definite word was expected from Hon. A. J. Hooke, minister of economic affairs, by February.

Mr. Ansley also told the men where Alberta teachers will send their pension money to receive training in England and Scotland. Arrangements are being made through a city department store, he told delegates.

Following registration the invocation was read by the Rev. Donald Young, minister of the Central Baptist Church, and a welcome was given by Ald. H. E. Tanner on behalf of the city.

Minister Speaker Thursday afternoon was Dr. Max Cameron, head of the Alberta Department of Education, and the speaker was the University of Alberta's Prof. R. Warren, inspector of high close tonight.

### Chile Orders Arrest 360 Strike Leaders

SANTIAGO, Oct. 24.—(AP)— Chilean authorities, declaring there is an organized Communist plot to seize power, yesterday morning ordered the arrest of 360 strike leaders in the vital copper region of Chuquicamata, where miners have joined a spreading walkout.

In another counter-move the government dispatched troops last night to the copper mining plants and ordered military control tightened throughout the four districts for a two-day curfew.

The delegates to the Second Education District teachers' convention were told that hopes for a more advanced pension plan for Alberta teachers are much brighter.

Mr. Ansley said excellent progress had been made in efforts to get a written contract, "not just a dictation," he said, "that teachers would soon be included in the contract."

He gave instructions to new members as to how they should work with the boys at the YMCA every day, and the new members were to talk on his job with the boys at the "Y."

It was decided that three or four senior members will brief the boys at their Thursday evening classes the "Y" on different aspects of citizenship and athletics, schools, spoke on "Pupil-Teacher Relationships."

The convention continued this morning with the business of the last. It will officially come to a high close tonight.

### Air Fleet Continues Search for Missing Plane in B.C.

Hope that some of the nine persons aboard were still alive heightened as RCAF and U.S. and private aircraft continued the hunt for the missing photographic plane missing since noon Saturday. A report from Arrow Lake, northwest of Penticton, B.C., said an orange flare had been seen arcing across the sky late Monday night. Crew of missing plane includes, from left: FO. G. Lebel; D. Bobcock

and R. Coutts, not on plane; FO. A. Robertson, G. Hudson, not aboard; FO. B. Cook. Passengers on twin-engine photographic plane being sought separately in B.C. are Mr. and Mrs. Fred Knight, right. Officials said it was possible the plane crash-landed on the Sicamous ridge near Penticton.

### Battle Against Cholera Co-Operation Example

By Olaf Haddad

CAIRO, Oct. 24.—(AP)—The cholera epidemic has been an outstanding example of international co-operation. Britain, Soviet Russia, the United States, France, Italy, Holland, Switzerland, Lebanon, Syria and Iraq have made vaccine, blood plasma or drugs available to the Egyptian government.

Governments everywhere are doing their best to combat the epidemic which, in its first 21 days, resulted in 2,906 cases and 1,000 deaths.

Only a few weeks ago the United Nations security council was unable to agree on any resolution to combat the disease. But when Gamal Abdel Nasser's demand for complete withdrawal of British troops from Egypt was rejected by the government of Egypt and the Sudan, there was no delay, however, when the United Nations emergency committee was called on to place its services at Egypt's disposal.

Medical clinics emphasize that the disease, though dangerous, and under certain conditions, would spread quickly in the middle east if concerted and drastic measures were not taken. Egyptian health experts feel that if cholera swept unchecked through this part of the world, the existing ruling regimes would be shaken and the field more fertile for Communist agitation.

EGYPTIAN TROOPS have been deployed for disease prevention purposes, including IDT spray teams, which have sprayed 100,000 villages. Squads have been created and the government has banned the importation of foodstuffs from neighboring areas. Opening of schools and universities was postponed indefinitely and all courts in stricken areas were closed. Sea sailing was forbidden.

Medical clinics emphasize that the disease, though dangerous, and under certain conditions, would spread quickly in the middle east if concerted and drastic measures were not taken. Egyptian health experts feel that if cholera swept unchecked through this part of the world, the existing ruling regimes would be shaken and the field more fertile for Communist agitation.

The government of Palestine, Syria, the Lebanon, Iraq and Iran and Turkey are taking the strictest measures to prevent the spread of cholera in their territories. In addition to launching inoculation campaigns, health certificates are issued to travelers from Egypt and these are quarantined for several days. Importation of Egyptian produce and cultural produce in many cases has been banned.

In Cairo, Sept. 23 that cholera broke out at Korein village, in Egypt's northernmost province, Sharqia, which extends to the Suez canal, where thousands of British troops are stationed. In

### Actress Kisses "Monty" Before 6,000 Veterans

LONDON, Oct. 24.—(CP)—

It wasn't in the script but actress Glynis Glyn caught Field Marshal Montgomery on the cheek and planted a smacking kiss on his cheek last night at the fifth anniversary of the end of the fighting at the battle of El Alamein.

Mrs. Glyn, who was mistress of the house at the time of the battle, was at the party celebrating the anniversary and a special blessing from Pope Paul last Saturday. He had been a prince of the church since 1933.

Her death reduces the college of cardinals to 116 members. Cardinal Sarto, regarded one of the most brilliant prunes of the Roman Catholic Church, bore at one time the title of "the youngest cardinal" in the church's history.

The curious designation was his birth name, but he once accepted it as the faith which he once occupied. As such he had the duty of presenting the Congregation of Cardinals to Pope Paul.

Montgomery argued against a contemplated canonization to assure that no unnecessary ceremony would be held in the cathedral of the saints.

He had equal claim to the title of saint as his predecessor, but after his 20 years of service with the congregation, the advice of the saints' office was adopted. As such he promoted more than 100 causes for canonization, including that of St. John of Are in 1928.

"We have been taking it over," said Cardinal Macmillan, who died earlier this month. "We have a special relationship with the Congregation of Cardinals. We are not an emergency that requires calling a special session, but we would like to do something to honor him. We have to call at the beginning of the summer."

Parliament prorogued last session and will not sit again for long hours for a month. The session started Jan. 30. The year will be adjourned Aug. 31 and did not prorogue until Aug. 31.

Speaking Roger Hogue, he said:

"A man without a friend is a man within his own heart." He said the cardinal had a special relationship in other ages as such people living in rural districts were closely bound together. Modern society he added, is complex and turbulent.

Seven new members were induced to join the College of Cardinals by P. J. Kendal, E. H. Wright, assistant superintendent of Northwest Territories, G. V. Villeneuve, Bishop of Quebec, Sydney Sutherland, assistant manager of the Anglican Colonists' Electric Co. Ltd., Dr. R. D. Sinclair, director of the faculty of dentistry at the University of Ontario, and Oval Agiusson, manager of the produce department, Swift Canaries.

Program was in charge of the chairman of the committee, with Bill Carrill as chairman of the day. A concert by the Royal Philharmonic Orchestra at the piano was presented.

New Zealand Gift

WELLINGTON, N.Z., Oct. 24.—(Reuters)—Prime Minister Peter Fraser has sent a 100-pound New Zealand's wedding gift to Princess Elizabeth, the Anglo-American may be increased to 150 pounds.

Princess Elizabeth will be entertained by Maori carvings and greenstone articles, a type of jade.

Loyola Professor Answers Bishop

CHICAGO, Oct. 24.—(AP)—A Loyola University medical professor last night said Methodism has been the most successful branch of the Roman Catholic position on birth control based on "universal science and biological principles."

Bishop O'Conor, of New York, last Friday, was to excel as an authority. His work was a volume on the verse, called "Theology of Predestination in the Divine Art of Piety."

One of the ambitions of James I of England was to excel as an authority. His work was a volume on the verse, called "Theology of Predestination in the Divine Art of Piety."

Estimating the child-bearing years of a woman at 25, Bishop O'Conor said that the method is not practiced then it means that a woman may be called upon to bear 20 children, which, in recent years, has not happened.

Dr. Herbert Bainer, director of student health at Loyola, a Chicago Catholic university, said the Roman Catholic Church of Jesus, said in a statement last night.

The main misconception that characterizes the naive layman is that man is capable of reproducing the species, biology teaches the opposite.

"First, 10 per cent of all married couples are infertile. Second, many have a one-child sterility, some take from two months to two years before conceiving, some do not conceive until after 20 years."

Except for the Portuguese and Spaniards, every part of Africa was involved in the Second World War.

### Women Jam-Pack Probe

## Cooper, Montgomery Say Reds Hollywood "Danger"

WASHINGTON, Oct. 24.—(AP)—Movie stars Gary Cooper and Robert Montgomery testified yesterday that Communists and a red "hunk" had been in Hollywood in 1948 and 1949, and that Reds had infiltrated the movie capital but haven't gone far, particularly in the film industry.

Actor Ronald Reagan, and George Murphy, two other witnesses in the all-star cast of Thursday's installment of the red-hunting Senate probe, agreed with Cooper and Montgomery that the Communists have failed to penetrate the movie industry.

They all said a vast majority of the workers are against the tenets of Moscow.

Their hearing before the house committee on Un-American activities.

Cooper testified that he once received a letter from a Red agent asking him to help organize an

army of soldiers in the United States who wouldn't fight.

Montgomery, Reagan and Murphy, the former president of the Screen Actors Guild, agreed that Reds had penetrated the movie capital but haven't gone far, particularly in the film industry.

Actor Robert Taylor Wednesday, yesterday's case had a standing-room-only audience, mostly "ah-hahs" and groans.

Murphy looked the scene over appreciatively.

"This," he said, "is the most expensive set we've ever worked in."

Brass, silver, and gold wires were extensively used for fringes and bangles after they became trimmings as trimmings in the 18th

### Sugar Ration

FRANKFURT, Oct. 24.—(CP)—The German government has decided to assemble parliament in December instead of the end of January as originally planned for yesterday, but no decision has been reached.

"We have been taking it over," said Cardinal Macmillan, who died earlier this month.

The Canadian government has

been asked to postpone the

session to give the Germans

more time to prepare.

Parliament prorogued last session and will not sit again for long hours for a month. The session started Jan. 30. The year will be adjourned Aug. 31 and did not prorogue until Aug. 31.

Speaking Roger Hogue, he said:

"A man without a friend is a man within his own heart."

He said the cardinal had a special

relationship with the Congre-

gation of Cardinals. We are not

an emergency that requires calling a special session, but we would like to do something to honor him. We have to call at the beginning of the summer."

Parliament prorogued last session and will not sit again for long hours for a month. The session started Jan. 30. The year will be adjourned Aug. 31 and did not prorogue until Aug. 31.

HAROLD DEAN, Sports Editor

**E**N ALTHOUGH THE JUNIOR HOCKEY exhibition Thursday night may have been a long way off Memorial Cup playdown standards, once the puck was dropped the game was on the line.

The first period was rather druggy and Canadians were fortunate in finishing that session 3-2 up. Canucks appeared to be the more finished club in addition to holding an 11 to 5 edge in shooting.

Wetaskiwin boys were better co-ordinated in the second and were able to increase their 4-3 goal margin to 9 to 8 advantage in shots. Canadians exactly reversed the first period situation in the third, out-shooting the Saskatchewan lads 11 to 5, for a 25 to 24 edge for the entire game.

## Canucks Have Seven Hold-Overs

**C**OACH KEN DORATY MAY NOT TAKE HIS BOYS to the Memorial final again next spring, but then few of the fans who saw Canucks perform against the Saskatchewan Jukeys about a year ago would have realized as having much of a chance to reach the magnificent heights they eventually attained.

Ken has seven of that same squad still with him—Jim Bedard, Vic Krekelwetz, Gwynne Lovette and Arnold Thompson being in their final year of junior, Angus Jukes who is even only 17, Harvey Stein (18) and Russ Wylie (18).

Last year the winningest club being only the Goalie Bill Ray of the previous club was the Moose Jaw Club. Jim McLeod, 17, Earl Betker, Don Vogan, and Jim Van Buskirk are all 18.

In addition to Coach Dorat, the Moose Jaw club's president, George Vogan, is with the team, and so are Walter Smith and Harry Newton, members of the Canuck executive.

## "They'll Get Better—That's for Sure"

**O**VER IN THE WETASKIWIN DRESSING ROOM, Coach Clarence Moore appears "satisfied in most respects" with the performance of his men. Clarence thought "the boys were a little choked up in the first period after playing those two games in the smaller Lethbridge rink."

Coach Mohr also sees "a lot of hard work ahead," and he added "it takes a while to get the right combinations going, but they'll get better—that's for sure."

On the whole I think they played their positions reasonably well, but with Krekelwetz in the lineup Saturday, Canucks will be tougher."

Prettiest goal of the night was the fifth Canadian tally. Ken Cook took his time to get the Canuck net-minder out of position after being beautifully set up by Don Robertson. Vic Stasiuk got a part of nice one, and Angus Jukes completely tricked the Wetaskiwin defense when he circled the net and passed out to the waiting Jack McLeod, who, incidentally, is a very smooth operator.

## Bill Dockey Not Yet "Cleared"

**U**NIVERSITY OF ALBERTA ATHLETIC BOARD doesn't seem to be any too keen on grant Bill Dockey permission to play with the Canadians. Bill is a third year student in engineering. Rumor is that there may be further review of the case of Billie Merlik, who is playing with the Flyers.

Varsity strong, we hear their next ticks on Nov. 3 at the Grand.

John C. Paul, Moseley, George Abouafy, Reine Betsuin, Ceece Richardson, Helen Shires and Bob Head, members of the executive of the Wetaskiwin Canadians were on hand for last night's game at the arena. Canucks' Hugh Collin was unable to play due to an injured ankle and Vic Krekelwetz was out with the flu.

## List Swells to 50

# 27 Pucksters Gunning For Olympic Places

**O**TAWA, Oct. 24.—(CP)—Air Force headquarters last night issued a list of prospective tryouts for the RCAF Olympic team, already training at Ottawa Auditorium under its new coach, George (Bucky) Boucher.

So far there are 27 candidates, 15 of whom will be retained, and the team which will compete in the 1948 Olympics at St. Moritz, Switzerland, in January and February.

The ranks are expected to swell to around 50, and Boucher said he will be in Ottawa before the end of the year to get into condition before he starts flailing the axe.

**HEADING** THE list are two members of the RCAF Pilots team which in 1941-42 captured the Allan Cup. These are Sgt. Johnny Freeman, 30, and Lt. George (Bucky) Boucher, 26, both stationed here and Cpl. Jack Seymour of Woodroffe, Ont., a fitter.

In addition, about 10 players have been imported from RCAF stations in Canada to join the RCAF Pilots. The team which has come to terms with the set-up was undisclosed.

Stiwoski, a six-foot ringer who at 190 pounds one of the best players in the Western Ontario League, has signed with the Albertans by six pounds per man.

Former Hobie, starry Alberta performer, will not be seen on Saturday, due to an ankle injury suffered recently.

THE 27-GOAL game of the home-and-home series will probably be played under the arcs at Clarke Stadium on Nov. 1.

**Says Lorne Main To Receive Award**

**V**ANCOUVER, Oct. 24.—(CP)—Senior Canadian football will make a comeback in Vancouver if the B.C. Lions and the visiting Ottawa Rough Riders, Bill Burrows and Jim Hurley, will be here Saturday.

The seniors are expected to swell to around 50, and Boucher said he will take up the offer of forming the team to fill in if enough interest was shown.

Several former eastern stars, such as Orville Johnson, Jim O'Brien, Ron Riddell, Bill Burrows and Jim Hurley, will be as well as several good graduates of the junior circuit in the past few years.

**Rangers Acquire Ron Conacher**

**N**EW YORK, Oct. 24.—(CP)—Ron Conacher, 31-year-old star of the Toronto Maple Leaf team which in 1941-42 captured the Allan Cup. These are Sgt. Johnny Freeman, 30, and Lt. George (Bucky) Boucher, 26, both stationed here and Cpl. Jack Seymour of Woodroffe, Ont., a fitter.

IN ADDITION TO the 27 candidates for competition for the coveted position of Canadian Olympian, the RCAF Pilots, with 27 others, will be retained, and the team which has come to terms with the set-up was undisclosed.

Stiwoski, a six-foot ringer who at 190 pounds one of the best players in the Western Ontario League, has signed with the Albertans by six pounds per man.

Former Hobie, starry Alberta performer, will not be seen on Saturday, due to an ankle injury suffered recently.

THE 27-GOAL game of the home-and-home series will probably be played under the arcs at Clarke Stadium on Nov. 1.

**Go to Lexington For Brood Mares**

**N**EW WESTMINSTER, B.C., Oct. 24.—(CP)—George Addison, local horseman, will leave for Lexington, Ky., next Saturday to attend the annual meeting of the American Broodmare Breeders Association. Addison is slated to fight Harry Gordard, 26, of Los Angeles, Calif., Oct. 25.

OUT-OF-TOWNSERS far-slated for competition for the coveted position of Canadian Olympian, the RCAF Pilots, with 27 others, will be retained, and the team which has come to terms with the set-up was undisclosed.

Stiwoski, a six-foot ringer who at 190 pounds one of the best players in the Western Ontario League, has signed with the Albertans by six pounds per man.

Former Hobie, starry Alberta performer, will not be seen on Saturday, due to an ankle injury suffered recently.

THE 27-GOAL game of the home-and-home series will probably be played under the arcs at Clarke Stadium on Nov. 1.

**HOCKEY AT THE ARENA**

Monday, October 27th, 8:30 p.m.

**Saskatoon vs Edmonton**

QUAKERS FLYERS

Quakers require two tickets Saturday 8:30 a.m. to 9 p.m. and Monday 8 a.m. to 1 p.m. at "Mikes".

General ticket sales 8:30 a.m. to 8 p.m. Monday. Ticket Office at 1031 Jasper Ave.

GAME NO. 3

## Moose Jaw Stars Prepare for Junior Hockey Battle

—Photo by Blundell

Three high-flying forwards of the visiting Moose Jaw Canucks were caught by The Edmonton Bulletin photographer as they laced their skates and took last night's practice at the Canadian. The heavy end of a 6-4 score, but the life miserable for

goalie "Stew" Hendry on many occasions. Right to left they are Jim Vanbuskirk, left wing; Artie Jukes, who made the play for the last goal, and the center, Jack McLeod, who had a hand in Jukes' pass. The same teams will be seen in action Saturday night.

Conference Code to Prevail

## Gridiron Rule Battle Nearing Final Stage

WINNIPEG, Oct. 23.—(CP)—The battle of the rule books—Western Conference vs Canadian Rugby Union—yesterday moved to a climax in the squabble between Saskatchewan Huskies and Winnipeg's Red Rods, scheduled to meet here today.

President J. M. Bannerman of the Western Canada Junior Football Conference said yesterday that the two sides will meet in the semi-final, and further, if successful it would be CRU rules or none at all. Huskies' coach, Harry Hargrave, has agreed to Western Conference rules, as agreed at an organization meeting last spring between teams in the conference and the Huskies at the time. Huskies later reversing their stand and embracing the CRU system.

President Bert Warwick of the Manitoba Junior Football League had much to say about the existing system, but he said yesterday that he had been received in a telegram from the conference president, which was directed only to the Western semi-finalists, but the final between the winner of the semi-final and the winner of the BC vs British Columbia players and that of the Huskies—hadn't been decided.

CRU RULES allow Huskies to knock 10 yards beyond the line of scrimmage but restrict them to only 90 yards. Western Conference rules allow both backs and linemen to knock 10 yards beyond the line of scrimmage.

President Bert Warwick of the Manitoba Junior Football League had much to say about the existing system, but he said yesterday that he had been received in a telegram from the conference president, which was directed only to the Western semi-finalists, but the final between the winner of the semi-final and the winner of the BC vs British Columbia players and that of the Huskies—hadn't been decided.

MICHAEL PIASTRO, world famous violinist and conductor of LONDONES SYMPHONETTE, featured over KDKA at 12:30 p.m. over CIBN. It is a program of some of the most honored music, rated as one of the best on the continent. Advt.

# Our Town

By JACK SCOTT

## The Tidy Bed

This column is addressed to a 16-year-old boy named Walter. He is about five feet five inches tall. Walter is in the neighborhood of 125 pounds. He has brown curly hair, is wearing black trousers, a grey work shirt and a heavy blue Mackinaw.

Walter's mother came into our office yesterday. She said Walter had been reading and unhappy about his school work. Had packed some time to work on some farm. The boy had not been home since he left school.

Walter's mother didn't want to go to him. She thought if I put something in the space the kid might see it and write her back.

"He just took one suit of light underwear," Walter's mother said.

"I know where he was I could send him his winter underwear and some money."

Walter's mother is a sensible woman. She is right. There is no reason to be hit on his own. She does not know he is an adult.

Indeed, she may have some unconscious pride in the fact that her boy has the gumption to set out on his own as a man. But, he will look after himself.

The feeling, on the other hand, cannot be denied. Walter and his mother feel or the world in their mind when night comes. She can say to herself that he is all right. She need not be.

Warehouse facilities are generally required to house the demand throughout Canada but

additional warehouse space in Edmonton and Calgary, Mr. Naylor said.

(Continued on Page 18)

## To Change Route of Kingsway Bus

A change in the route of the Kingsway bus will go into effect Friday. Thomas Ferris, supervisor of the Edmonton Transit System, said.

On the new route the bus will operate from 111 avenue and 101 street west on that avenue to Kingsway, then turn north on 101 street to present terminus at 118 avenue and 124 street returning over the same route and then north on 92 street to 158 avenue and west to the airport terminal. The bus will then turn south on 158 avenue, returning east on 18 avenue and south on 91 street and 101 avenue.

Transfers will be available from and to the bus at 111 avenue and 101 street, 118 avenue and 124 street, on the westbound trip, and on the northbound trip at 97 street and 111 avenue.

## Warehouse Official in City on Tour

Inspecting warehouse facilities in the city on a two-day tour, W. Naylor, Toronto, national president of the Canadian Warehousing Association and James A. Noyes, chairman of the Alberta division, attended the meeting.

Mr. McNeill, Edmonton, director of the Alberta division, also attended.

A dinner followed the business session and banquet of the association.

The purpose of the meeting and trip to Alberta is to bring and increase available space for storage and better distribution of products.

Warehouses, facilities are generally required to house the demand throughout Canada but

additional warehouse space in Edmonton and Calgary, Mr. Naylor said.

## Youngsters Cause Extensive Damage

Violent resulting in serious damage was reported to early morning hours Saturday to a car contractor, E. Kenyon, 1102 K street. He stated that vandals had pulled new staves from the rear of the former Drug Store.

In addition to this, his hub caps were stolen.

Mr. Kenyon said the strenuous labor of repairing the damage

Another building which had suffered knocked off its base was the former 2000 Club, 1007 K street. In the early morning hours, the windows and doors were shattered.

At 10:30 a.m., Mr. Kenyon said the damage was still being repaired.

## Says Apathy, Indifference Among Canadian Women Voters

BY GAY REK

OTTAWA, Oct. 24.—(CP)—Apathy and indifference to affairs of the country exist among the women voters of Canada, Mrs. Hedges of Victoria, newly-elected president, Wednesday night told delegates to the annual meeting of the National Federation of Liberal Women.

Members of the British Columbia delegation, who came to Ottawa yesterday, were unanimous in a statement prepared for delivery to government leaders during the three days of the annual convention in 1950.

Mrs. Hodges, a Victoria housewife, said she was elected to the British Columbia Legislature, after a long and difficult campaign, to represent the people of her province. Mrs. T. J. Boister of Vancouver, a Progressive Conservative, was elected to the legislature.

Since 1945, Mrs. Hodges has been a member of the legislature, representing the constituency of Saanich, which she left in 1949 to become a member of the Victoria City Council.

For years, Mrs. Hodges gives that, rather than journalism, as the reason for her entry into politics, but she now prefers to remain anonymous and from Neatby, Neutral, and Victoria, she said, "I am not afraid to speak my mind."

Delegates deplored the tendency to overemphasize temporary food shortages, no matter what the cause, and urged that attention be given to the problems of starvation millions in other parts of the world.

At the same time, however, she urged women to set their faces against any sign of the return of fascism. She said that the world which fed to grain being fed to pigs or foodstuffs destroyed at a time when children the world over were suffering from malnutrition.

**Wields Sledge Hammer Aiding Hubby Build Home**

By DOLORES KIMBELL

"Women work at various times in the course of their domestic duties, but few can claim to have won a cement foundation like the two-story house I am building."

Since she began dabbling in the construction business, Mrs. Steve Cochrane has won a new source of income, a cement foundation, and a two-story house.

She began dabbling in the construction business because she wanted to earn some extra money.

After a year of saving, she had

enough to buy a sledge hammer.

It is not long since women broke down the barriers that kept them from entering occupational fields which men have always considered exclusively their own, but Mrs. Cochrane's work with the cementing industry has been unique.

Steve Cochrane is a man.

Steve Co

## Churches to Back Marshall Plan

HAMILTON, Oct. 24.—(CP)—Canadian churches should support "a constructive plan" for Canada to do more than in previous credits and goods to aid the Marshall Plan for aid to the needs of Europe, the Canadian Council of Churches decided at its four-day annual conference ended here last night.

A resolution supported the Archbishop's declaration that the church should "firmly refuse to accept the position that Europe must be made to bear the cost of its own defense." It criticizes Vatican policy which "treats Russia as the chief enemy of the church" and "which does not allow the church to help remove the fear and hatred separating nations and divisions."

It also upheld the Archbishop's declaration "to support the United Nations and the principles of cooperation through which the nations can continue to promote world peace and

restrain would-be aggressors."

Another resolution passed by the conference in its discussion of the wealth of Nations and our election to a place on the Security Council, called for a "more active country external affairs policies."

The council also took a stand against racial discrimination, racial and interfaith intolerance, a resolution calling to the attention of the Canadian people "the very serious problem of racial discrimination and discrimination in matters of employment, admission to public places, and the like."

Recently released after spending three months in jail, Donald White, no fixed abode, was sentenced to spend the next two and a half years in Prince Albert penitentiary when he appeared before Magistrate A. L. Millar in city police court yesterday on charges of housebreaking, four counts of theft of auto and four other theft counts.

**THE ACCUSED** was arrested last Tuesday in Calgary. He admitted stealing two auto in the

city, and in Edmonton he broke into a man's room and stole his personal belongings. On trial were two men, taking the valuables before abandoning them, and so brought the total amount stolen to \$100 and guilty to all counts.

The accused barely eluded police here last Saturday after they had been chasing him for four hours. While told the magistrate that he had stolen the car in Calgary, he denied the charge that he had no place to sleep and so drove the cars 10 miles out of the city and slept in them.

Magistrate White accepted the accused and a half years on the housebreaking charge, 18 months on each charge of theft of auto, one year on each of the other charges of valuable worth more than \$25, and six months on each of the other charges of less than \$25. All sentences are to be concurrent.

In July the accused was sentenced to three months imprisonment on their charges before that he had been released on a \$1000 bail for attempted car theft and attempted shoplifting.

A witness who appeared to be a surly-looking man from a pawn shop, induced him to change his plea Friday morning from not guilty to guilty. He was charged with keeping liquor for sale.

When first appearing in the box, he pleaded not guilty. The woman brought him in and he said he had testified that about 4 a.m. Oct. 21, they had observed a woman leave the pawn shop with a bottle of wine.

The woman, who was a friend of the accused, and taken to police station. From information received police went to the pawn shop and searched the accused's room and found seven bottles of wine.

The woman was the one that changed Peterson's mind. Police produced the woman they had picked up and reluctantly admitted her and brought her to the courtroom from Peterson. Following her testimony, Detective Val Taxco was about to take the stand when Peterson spoke up stating: "If it pleases the court I would like to change my plea." This was agreed and the magistrate imposed the

accused and the magistrate imposed the

## Call for Stand Race Intolerance

HAMILTON, Oct. 24 (CP)—A call for stand against racial discrimination and intolerance in Canada was taken by the Canadian Council of Churches in a resolution passed at their closing session here last night.

The resolution took note of the growing number of racial minorities and discrimination in many areas of employment, admission to public places, accommodation, entertainment and in the general ways of neighborhood relations in our communities.

Also, the resolution was aware of "racial tensions concerning our Jewish citizens and

those of the negro race, and that some of our people of other races and nationalities come close to racialism and others and fellow Canadians feel that they are being discriminated against."

Ernest Larimore, 46, one-time matinee idol and star in such broadway successes as "The Girl of the Golden West" and "Biograph," died yesterday. Larimore once was a clerk in the famous New York store as Clark Gable. He left the store to become a Broadway actor.

NEW YORK, Oct. 24 (AP)—

Ernest Larimore, 46, one-time matinee idol and star in such broadway successes as "The Girl of the Golden West" and "Biograph," died yesterday.

Larimore once was a clerk in the famous New York store as Clark Gable. He left the store to become a Broadway actor.

## DRAMATIC EVENTS IN THE HISTORY OF ALBERTA

## NORTH WEST REBELLION 1885 \* EDMONTON

The North West Rebellion of 1885 is of historic importance in the annals of Canada, particularly those of the West.

Although the main hostilities occurred in Saskatchewan the situation in Alberta during the rebellion was very alarming. The Indians were in a mood for fighting. Unrest was caused through the influx of the white man, the disappearance of the Buffalo; and the Indians were often in want and blamed the white man for their plight. There was a large Indian population here, no organized militia and few policemen. But quick action on the part of the authorities from Eastern Canada relieved the situation of much of its danger. General T. Bland Strange was placed in command of the District of Alberta. He quickly organized a militia known as the Alberta Field Force of 1885 for the purpose of proceeding to Edmonton and to Fort Pitt where Big Bear, Chief of the Crees Indians, was on the war path. Soon after the tragedy of the Massacre of Frog Lake, General Strange and his force found the chief of the Indians, Big Bear, at Fort Macleod. Big Bear was arrested at Fort Macleod and subsequently Big Bear was arrested at Fort Carlton, which ended the rebellion.

Many tragedies were enacted in the North West Rebellion but they would have been much greater had the authorities minimized the dangers of the situation or had the need for adequate military force not been so promptly met.
